Details of this change

Nexperia have qualified PMV213SN on their strip to strip production line in addition to the existing BIM line. Product from the strip to strip line will use CEL-9240 mold compound

CN-202106033FQualificationResults.pdf:
<https://qcm.nexperia.com/Document/DOC-516929/CN-202106033FQualificationResults.pdf>

Why do we implement this change?

Adding a strip to strip process increases production capacity

Identification of affected products

Product Identification does not change

Product availability

Production

Planned first shipment: 15 Oct 2021

Sample information

Samples are available upon request

Impact

No impact to the product's functionality anticipated

Data sheet revision

No impact to existing datasheet

Disposition of old products

New materials can be used in parallel to the existing used materials.

Feedback

Your acknowledgement of this change, conform JEDEC J-STD-046, is expected till 04 Aug 2021. Lack of acknowledgement of the PCN constitutes acceptance of the change.
