Product influenced 產品變更影響程度	Major change		
BU: 產品管理單位	CCBU_TPE		
Category: 文件類型	Create new		
Product Attribute Affected / 變更影響面 材料Material-包裝材料/方式變更Packing material		Description and Purpose of Change / 變更目的與詳細說明 At present, The glue nail are used at both ends of the tube during the packaging of moose model. Due to the fixed position of the glue nail hole, the materials will shake in the tube, resulting in the risk of material collision (the film of the model with film will collide off). At the same time, the inner box of the packaging is relatively thin, which is easy to cause carton damage during transportation. Based on the above two reasons, EVERLIGHT intends to change the packaging mode of moose model. The material can be plugged tightly by changing the rubber nail to the rubber plug to prevent the material from shaking in the tube.	
Anticipated (positive and negative) impact on form, fit, function, quality or reliability: 變更後產品影響度，外觀，尺寸，功能性，品質與信賴性 No impact in terms of optical characteristics and reliability.			
Product Identification: (e.g., affected supplier part number(s), affected product lines including specific package types, product families): 影響項目 (Ex:供應商品名變更，影響產品廠別，封裝型式變更，產品系列)
